

TAKEOUT/CARRYOUT BOXES

DESCRIPTION OF PRODUCT:

During this time of takeout and fast food, **it is important to keep the foods and beverages sold to your customers protected** from the outside world. What better way than having a takeout or carryout box for these items! These boxes can **display your company's branding, a funny pun on what is inside or a thank you message to your valued customer.** During this Covid-19 pandemic, it is important to protect yourself and food from the **transfer of microorganisms, particulates and fluids** to minimize the potential for personnel contamination. **For a quote or any questions on a takeout/carryout box, please contact us.**
